Marquis Athletic Club Annual Sports Day Postponed to 15th

Owing to the rain last Saturday, it was necessary to postpone the sports program of the Marquis Athletic Club until Saturday, June 15th.

Rainfall

Precipitation this week, .53, total from April 15 this year, 2.24 as against 3 in. last year in the same period, according to Searle Grain Records.

Queenstown Items

Sat aside Friday, June 14th for Queenstown's big baseball sports day. The committee is planning a good program.

Miss A. Rubelke was a visitor to Calgary the past weekend.

Queenstown Ladies Aid met at the home of Mrs. Sloan with 17 members and visitors present. A lovely lunch was served by the hostesses assisted by Mrs. Lund and Mrs. Miller.

Mr. and Mrs. W. Blower and daughter Vera were visitors to Calgary Monday.

Mrs. Blair of Calgary is a visitor to Mr. and Mrs. White.

Mr. Sutor, Norman White and Leslie Dobson, went to Calgary on May 29 to see the Scotch Football Team play.

The dance held in Queenstown Friday May 31 was very well attended, everyone reporting a good time.

Miss J. Bins spent the weekend in Calgary with her parents.

Mr. and Mrs. McCumber and daughter Peggy were visitors to Calgary June 3.

The dance of the year—Friday June 14th. Music by the popular Len Davis 7-piece orchestra.

For a Special Treat Serve

Palm Ice Cream

Available in Assorted Flavors in Bricks or Bulk at the

Arrowwood Bakery

Recital Saturday Night

Mrs. P. H. Coleman will present her pupils in a Piano Recital in the Arrowwood School on Saturday, June 8th, at 8 p.m. The public is invited. No charge.

New General Manager for Goodrich Co.

Kitchener, Ont., May 25—Effective today, the board of directors of Canadian Goodrich Co. Limited, elected Mr. F. G. Morley Vice-President and General Manager to succeed Mr. E. S. Sargeant, who has been granted a leave of absence. Mr. J. E. Gulek, Factory Superintendent, was elected a Director.

Mr. Morley has been a member of the Goodrich organization in Canada since 1923. He started in the Auditing Department in Akron in 1916. After a year's training, he was appointed Travelling Auditor. His next assignment was in the Credit Department and a year later he was transferred to Canada as Credit and Operating Manager. When the Ames Holden Tire and Rubber Co. was purchased by Goodrich in 1925, and the Canadian Goodrich Co. Ltd., organized, he was appointed General Credit Manager. In February, 1929, he was promoted to Secretary-Treasurer.

Church of the Brethren Notes

Sunday being Pentecost, the services of the day will be directed to commemorate that day of great spiritual blessing and to seek a repetition of that blessing for the Church to day.

The Deacons will be in charge of the entire Church service on Sunday morning.

Sunday evening the Pastor will speak on "The Birthday of the Church". Congregational singing of old familiar hymns. What would you like to sing? Prayer services: Thursday evening at Marvin Norton's. Friday evening at Mrs. Salter's. Sunday evening, 7.30, at the church. Intermediate service Sunday evening at the church, 7.30. Business meeting Thurs. 2 p.m. Children's exercises Sunday morning, June 16.

Arrowwood Annual Sports Celebration a Huge Success

BLACKIE WINS BALL TOURNEY

Backed in Sunny Alberta's sunshine the town of Arrowwood was favored with near perfect weather for the ninth annual celebration Monday, June 3rd. This, coupled with the carefully organized program of events, drew a crowd of approximately 1300 people to the grounds for the day.

The parade was one of the day's biggest attractions and in a galaxy of color provided an event long to be remembered in Arrowwood history, and one which will give incentive for forthcoming years.

Assembling on railroad avenue the parade procession was led by the local units of the Boy Scouts and the Girl Guides. Following these were the various floats, especially constructed for the occasion. The business men's float, which was a work of art in itself, very effectively advertised the different firms of the town.

The float, "Alberta," very cleverly constructed, depicted three of Alberta's basic industries, farming, mining and ranching so conclusively that the judges awarded it first prize.

Second prize for the educational float was awarded to Miss Spenser's room, which presented the British Empire in a very creditable arrangement.

The float "Health," a contribution by Miss Harvie's room, was awarded third prize in the educational section.

"Canada," a contribution of Miss Andrew's room was a carefully planned exhibit and the training of the students of that room was evident when they sang in a splendid manner to capture the honors for group singing.

Messrs. Fonger and Miller are to be congratulated in securing the exhibit of the Alberta Wheat Pool.

Our "Blackfeet" neighbors deserve much credit for the prideful manner in which they entered the parade to make a colorful show. The competitive rivalry of the Indians never fails on such occasions. The prizes for the best dressed Indians were awarded to Joe Caldwell and Mrs. Boy Chief.

The only clown of the day was Chester Johnson who was bedecked in a clever costume for the occasion.

The oddest pet displayed in the parade was an owl, the property of Mr. Desjardine of Glenice.

The first baseball game of the day between Lomond and Queenstown proved to be a one sided affair when the snappy Queenstown club got away to a great start and maintained a comfortable lead throughout. The boys from the south had a very bad day of it making many costly errors.

In the second game Blackie and Arrowwood played clever ball for the first three innings when Arrowwood weakened to allow Blackie a commanding lead. The game ended with the score 15-3 in favor of the visitors.

The final game between Queenstown and Blackie showed the best ball of the day

both teams were playing "hard" and there was very little to choose between these two clubs, as was indicated by the final score 5-4 in favor of Blackie.

To the High School girls goes the credit for bringing honor to Arrowwood, for they dominated in softball and basketball. The softball game between the A.H.S. girls and Strathmore was a very interesting event, and although there were many errors, these did not detract from the interest of the game. The final score was A.H.S. 19, Strathmore 17.

Blind Creek opposed the A.H.S. girls in basketball but were outplayed and outscored 16-6. The game attracted a large crowd of enthusiasts and it provided a deal of interest when it developed into a rough struggle.

During the afternoon a team of Indians gave a display of a genuine gambling game, although this was somewhat difficult to understand at first, it provided an idea of queer Indian customs.

Throughout the day the sports committee carried out a program of athletic events to keep the children and youth in activity.

The dance in the evening was a decided success, and although the crowd was not a large one for a sports day celebration, a considerable sum of money was realized. The music supplied by the Len Davis Orchestra was, as usual, of a high calibre. The various committees in charge of the Sport's Day Celebration wish to thank everyone who in any way contributed to the success of the day by supporting the different events.

Arrowwood Social Credit Study Group Notes

Is Social Credit on the wane in and around Arrowwood? Anyone who attended last night's meeting can positively say "Not so you could notice it." A good crowd of close to 300 turned out to hear Mrs. Gostick give an address on Social Credit and by all appearances thoroughly enjoyed themselves. Some came from as far as 25 miles to hear it and expressed themselves as well satisfied.

Shouldice News

Shouldice School has been closed by the Health Officer, Dr. E. J. Liesemer, for 10 days on account of whooping cough.

Miss Kennough spent the past week end in Calgary and Carlsbad.

Mrs. Weberg has been a visitor to Calgary the past weekend.

Mr. R. Shouldice and Mr. D. Y. Hill were visitors to Calgary this past week-end.

Arrowwood Notes

Farmers desiring hopper bait can secure same at the Pool Elevator.

Don't forget the recital in the School Saturday evening. The public is invited. No charge.

Born—At Mrs. Lowendon's Nursing Home on Saturday, June 1st, to Mr. and Mrs. R. Huri a daughter.

Born—On Monday, June 3rd, to Mr. and Mrs. R. Oliver, a daughter.

Miss Clara Service, of Glenice, spent a few days this week visiting with Miss Hazel Taylor.

Mrs. Rainville returned home on Monday from Glenview, where she had spent two weeks visiting with her daughter, Mrs. Sawyer.

Mrs. A. N. Thorsen, arrived in Arrowwood last week from Spokane, Wash., and will spend the summer here.

Piano class work conducted by Mrs. P. H. Coleman Consolidated High School. Pupils may enter at any period of the year.

Mr. George H. Scougall will be in Arrowwood on Monday, June 10th, at R. N. Moir's residence, from 10 a.m. to 5 p.m., for the revision of the Federal Voters List.

The U.F.W.A. meeting has been postponed from June 5th until June 12th and will be held at the home of Mrs. M. H. Ward with Mrs. Ellis assisting.

Mrs. R. R. McBride, Miss Irene Hesketh, Miss Wynona Sly and Mr. Irwin Scott left on Sunday for Edmonton, where they will attend "University Week for Farm Young People." They will be away for about ten days.

Mr. Ralph Leonard has taken over the West End Garage, formerly in charge of Mr. L. E. Parnell. Ralph will be taking over his duties there on July 1. Mr. and Mrs. Parnell and family will leave then for the Old Country.

A meeting to discuss the grasshopper campaign will be held in Cranton Hall, Arrowwood, on Saturday, June 8th, at 8 p.m. Speakers: Mr. White, Dominion Entomology Lab, Lethbridge and Mr. Price, Fieldman for the Vulcan district. The same speakers will address a meeting in Milo at 3 o'clock.

Fourth Annual U.F.W.A. Conference

The fourth annual U.F.W.A. conference for this section of the Maple Constitution was held at Queenstown hall on May 29, with Mrs. R. R. McBride in the chair. The conference opened by singing "Oh Canada", followed by community singing and the creed. The following committees were appointed: reception—Mrs. Steve Williams, Mrs. McRae, Mrs. Amey; resolutions—Mrs. Oldfield, Mrs. Steve Williams and Mrs. Pinkerton.

Interesting reports were received from the Berrywater Arrowwood, Queenstown, Milo, and Kirkdale locals.

Mrs. M. H. Ward gave a very interesting paper on Recent Discussions on the H. S. Cirri. This led to the passage of a resolution declaring that the High School Curriculum be changed to more nearly meet the needs of the young people of to-day. Another resolution which was passed was one asking

(Continued on page 4)

Mossleigh's Fifth Annual Sports Day Wed., June 12th

Mossleigh will celebrate its fifth annual sports day on Wednesday, June 12th, commencing at 1 p.m. A good program of sports has been arranged, consisting of races, ball games, tug-of-war, etc. A dance will be held in the evening, for which the Len Davis orchestra has been engaged.

Mr. White, Dominion Entomology Lab, Lethbridge and Mr. Price, Fieldman for the Vulcan district, will be present

SETTING A STANDARD

U.G.G. Elevators have set, throughout western Canada, a standard of service and treatment in handling grain for farmers.

It pays to have a U.G.G. Elevator at your station, and it pays to make use of it.

DELIVER YOUR GRAIN TO

UNITED GRAIN GROWERS LTD.

Elevators at Arrowwood, Milo, Queenstown, Mossleigh and Shouldice.

Soybean Seed Varieties

Amount Required For Acre Depends On Variety

Largely On Variety
— Soybeans may be drilled solid, like small grains, or seeded in cultivated rows, usually 28 inches apart. The grain drill can be used for both methods.

The amount of seed required to plant an acre depends on some extent upon the variety, as soybeans seed varies somewhat in size, according to the variety. In general, however, seeding will require from 30 to 45 pounds of seed per acre, while drilled seeding will require 90 to 120 pounds of seed per acre. The drill should be regulated to drop the seed about 1 to 2 inches apart in row planting, and 2 to 3 inches apart where drilled solid.

The time of seeding will vary somewhat according to locality and conditions. At the Central Experimental Farm, Ottawa, seeding about the middle of May has been found very satisfactory.

Building Special Machine

Britain Will Attempt To Regain Airplane Altitude Record

The attempt of the Royal Air Force to regain the airplane altitude record for Great Britain is to be made by specially selected officers in August. The present world record is that of 47,372 feet, reached by the Italian airman, Dainoff, in a biplane, this stratosphere flight the Air Ministry recently placed an order for a special machine, and it is now under construction. The chosen crew is to be given training similar to that of Schneider Trophy pilots. One test which will be applied at the R.A.F. School of Aeronautics, Farnborough, England, will be that of the "Decompression Chamber," in which a man is placed and his reactions noted to atmospheric conditions similar to those of the stratosphere.

HIS LUMBAGO HAS NOT COME BACK

Keeps Free Of It With Kruschen

There can be no doubt about the effectiveness of the remedy this man uses against lumbago. Read his letter:—
"About four years ago, I had a bad attack of lumbago. After being in hospital for two weeks taking treatment, I started taking Kruschen Salts. Since then, I am happy to say I have not had lumbago since. I shall still continue taking Kruschen to be sure the lumbago won't come back. A. C. C. Why is it that Kruschen is so effective in keeping lumbago away? Simply because it goes right down to the root of the trouble, and removes the cause, which is impure blood stream. The six salts in Kruschen purify the blood stream, and keep you by promoting a clockwork regularity of all the organs of elimination."

Cyclone On The Sun

Represented By Group Of Enormous Spots Just Discovered

German astronomers and meteorologists report the discovery of a group of enormous spots on the sun that are the size of the earth.

The Potsdam Observatory reported having found on the lower left edge of the sun a fantastically patterned group of spots, the length of which German scientists estimated at between 60,000 and 70,000 kilometers, between 37,500 and 43,750 miles.

The German astronomers say that these sun spots represent a cyclone of powerful dimensions which has suddenly appeared on the sun and now is moving in the upper atmosphere, sending great waves of electrical tension into space.

Foresees End Of Scourge

One Of Famous Mayo Brothers Says Cancer Being Conquered

Dr. W. J. Mayo, one of the two famous Mayo brothers of Rochester, Minn., predicted at San Diego, Cal., that "the day is not far distant when there will be no fear of cancer."
"Less than 10 per cent of American people are susceptible to cancer, and of these only a very small percentage ever contract it. It is with these that we are working," he said.
"Medical science has made rapid strides toward control of cancer and sooner than many suspect will have it whipped just as medical science whipped typhoid fever."

"My papa's mounted policeman," said little Pat to his mother's visitor.
"Is that better than being a foot policeman?" she asked.
"Course it is," replied Pat. "If there's any trouble, he can get away quicker." 2099

Game Conservation

Demand For One Year's Moratorium

On Waterfowl Shooting
Counseled by international conservation leaders, a massed petition demanding a one year's moratorium on waterfowl shooting is crystallizing in 11 midwest states and three Canadian provinces.

The movement, known as the Midwest Conservation Alliance, was organized by international midwest action on "the greatest wild life emergency America has faced since the passing of the buffalo."

Such international leaders as W. G. Ross, Moose Jaw, president of the Saskatchewan Fish and Game League, Kermel Roosevelt, New York, president of the National Association of Audubon Societies, and Jack Miner, Kingsville, Ont., are numbered on the Alliance's active committees.

With preliminary activities indicating a unanimity of opinion for its objective, the Alliance is circulating petitions prepared on two forms: for sportsmen's clubs, and individual sportsmen. After signing, the forms are returned to the St. Paul office for correlation. When complete, the massed petition containing names of thousands of midwest sportsmen will be mailed to all members in charge, our famous booklet "The A.B.C. of Home Rag Making."

Inviting Canadian organizations to join the movement by signing petitions, the Alliance announced that all units organizing petitions may receive them by addressing to the St. Paul office.

The organization represents the "greatest concentration of conservation leadership and prestige ever assembled under a single campaign crusade," the bulletin concluded.

New Publications

McKinn's 1935 Directory Of Canadian Publications Gives Evidence Of Improved Conditions

The 1935 McKinn's Directory of Canadian Publications, just off the press, lists tangible evidence of improved business conditions, showing an increase of 62 new publications as against an increase of only 20 the previous year. Failures in the publication field decreased proportionately.

This 1935 edition of the directory is the twenty-sixth, the series having begun several years after the founding of the A. McKinn Limited, advertising agency in 1889.

Recognized as an authentic guide of advertising media throughout Canada, the directory gives exhaustive information about newspapers, magazines, trade papers and miscellaneous publications. Provinces, cities and towns where publications operate are all listed, together with their circulation figures and outstanding characteristics of market areas. Somewhat larger than its predecessors, this edition will replace last year's directory on the desks of manufacturers, publishers and firms dealing in advertising in Canada. Enquiries concerning the publication should be addressed to any one of the six McKinn Advertising Agency offices at Montreal, Toronto, Winnipeg, Vancouver, Halifax or London, England.

A tire with especially heavy tread is one manufacturer's solution of the winter problem of driving on snowy and icy surfaces.

The Roll of Honour

Call the roll of critical "roll your own" and you'll find that Ogden's Fine Cut is their favorite cigarette tobacco.

Ogden's Fine Cut and "Vogue" or "Chantecler" papers are the combination receiving the highest honour from men who "roll their own."

A Clever Sculptor

Work Of Blind War Veteran Admired

In Italy Ernesto Mansuetti, who completely lost his sight in the World War, has become a sculptor in Rome. The ex-soldier had done no modeling until four years ago. His recollection memory enables him to recall shapes and details, and he prefers to work in the dark when the household has gone to bed at night. In spite of the heavy handicap, Mansuetti has overcome the technical difficulties of his art without instruction. His work has been much admired in Italian art circles.

Several fragments of sixth century B.C. pottery discovered at ruins of Lachish, Palestine, bear the name of Jahve, spelled as Jehovah in the Bible.

A HANDY POCKET TREAT

SWEETENS THE BREATH!

The Opportunities Of Youth

Within recent weeks some thousands of young men and women have graduated from Canadian colleges and universities, received their diplomas, and are now ready and anxious to start out in the careers for which they have been fitting themselves. That is, there is a new army of lawyers, doctors, clergymen, nurses, teachers, chemists, engineers, scientific agriculturists, and others in various lines of activity equipped to assume their share of the world's work. To that work they are prepared to bring not only the enthusiasm and energy of youth, but the very latest knowledge, ideas and methods.

In the course of the next few weeks additional thousands of young men and women will emerge from normal schools, colleges and high schools, not quite so highly trained, but who do not aim at a university degree, or who cannot afford the time and expense which year in college will entail. These too, are ready and anxious to assume a place in the world's work.

Many of these young people have made great sacrifices and denied themselves pleasures, even comforts, to this equip themselves, and many parents have made even greater sacrifices to assist and enable their children to obtain advantages which they themselves never enjoyed.

The unfortunate, the tragic, fact is that these young men and women face extremely difficult conditions in securing places in the professions or occupations for which they have equipped themselves. They enter upon the active scene at a time when the whole world is seething with social and economic upheaval which is the aftermath of a great war fought in the years of their childhood. There is nothing new in such an upheaval because a similar condition has followed after every great war in the world's history, the only difference being that in this more highly civilized and machine dominated world the changes are much higher than in bygone centuries, life is more complex, and we all expect and demand more than did our forefathers.

The world of mankind could not commit the enormous and terrible crimes of the Great War and expect to escape the almost equally terrible consequences of the crime committed by them as the youth of today enter truthfully say they are not responsible for that crime, and youth may ask why they should be held responsible for it. But, the changes that have taken place down through the centuries, neither the moral law nor the laws of Nature have been altered. They remain fast and unalterable, and the world as it has been from the beginning of time that the sins of the fathers are visited upon the children of succeeding generations.

Youth must face this solemn truth and, along with it, face conditions as they are and the responsibilities which are forced upon them. They must set out into the world as it is, and in doing so, they must have faith that their attitude in and toward life is to be. They cannot, even if they could, evade their responsibilities and must discharge them either for good or ill as they themselves determine.

In the young graduate in law looking on life and his profession merely as a means of livelihood, wealth and position, or is he inspired with a sincere desire to see justice done in all cases, wrongs righted, oppression removed, regardless of the fact whether it means wealth and position for himself or not?

In the graduate nurse who desires of obtaining steady employment for herself, or has she a real vision of service in the profession? Is it by Florence Nightingale who gave her whole life to it without thought of personal reward?

In the new medical doctor thinking only of a big and lucrative practice in some centre of population, or is he resolved to devote his life to the alleviation of suffering wherever it may exist, and the prevention of disease that suffering may likewise be prevented, quite apart from material gain to himself?

In a word, are our new lawyers, doctors, nurses, teachers, engineers, clergymen, and others entering upon the activities of this sorely troubled world with purely material gain to themselves as their goal, animated by no finer ambition than some of that same selfishness which is to-day the curse of the world and has brought it to the state wherein youth now finds itself so severely handicapped, or are they prepared and ready, yes, determined, to do their part in the creation of a finer world, inspired by loftier motives of service which they can pass on to their children?

In the coming generation going to place stress on money, economic security for themselves, the attainment of social position and power, as so many of the past generations did and which ultimately ended in a world war, or are they going to strive to excel in the rendering of service to their fellow men? Is it life itself, in its truest and highest meaning, they are going to live, or is it to be merely a striving for selfish possession of the material things of life?

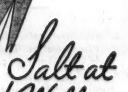

The great names which history records with credit, and which remain household words to inspire, are not those of men and women who amassed wealth or achieved social position. No, they are the names of the disciples who, ignoring and abandoning all, followed the Master; names, too, like David Livingstone and Florence Nightingale; names of doctors, chemists, scientists and inventors who freely gave their discoveries to the world for the world's benefit and advancement; clergymen and missionaries who lived not for themselves but for others.

Youth to-day enjoys just as great opportunities for real service as at any previous time. It depends upon youth itself which road it will travel—the road of helpful unselfish service, uplift, elevation, service of thought and living, or the road of personal selfishness, thinking only of self, and thus tending to a further degradation of mankind and intensifying the troubles, sorrows and injustices of the world.

A sailing vessel built in Denmark in 1790 is still on its trade route, and is believed to be the oldest one in the world on active service.

Stealing was rare in Mexico before 1790 as still on its trade route, and is believed to be the oldest one in the world on active service.

**Fourth Annual
U.F.W.A. Conference**

(Continued from page 1)

ing for compulsory annual tuberculin tests for all teachers in Alberta and for those entering normal with the idea of becoming teachers. The morning session adjourned upon motion by Mrs. Umphred. A delicious covered dish luncheon was served in the basement.

The afternoon session convened at 2 p.m. with community singing led by Mrs. Parnell.

Mrs. Marie Malloy, vice-president of the provincial organization, then gave an inspiring address. She urged the U.F.W.A. to remember that sentiment changes in a day but that reason endures. She said the U.F.A. did not want blind loyalty which follows their leaders blindly, but they wanted cool-headed reasoning men and women who will think things through for themselves in this crisis.

Mr. O. L. McPherson, our provincial member then gave a splendid talk on the importance and necessity of co-operation.

Mrs. F. G. Falton, U.F.W.A. Director for Bow River, was present and gave a good paper on Women's place in politics and pointed out their responsibility with the franchise.

The U.F.A. Director for Macleod also sent a message which was appreciated.

Other numbers which contributed very much to the entertainment were: Solos by Eddy Hellevang and Nellie Boslett; violin solo by Ruth Northcott accompanied by Mr. Cann; ladies quartette by Mrs. Ward, Mrs. Vanell, Mrs. H. Brown and Mrs. Mason; readings by Joan Williams, Mrs. Ruthberg and Mary Bertrand.

It was decided to have permanent conference officers to assist the directors in arranging conferences and the following were elected:

Pres.—The Director
Vice-Pres.—Mrs. N. Campbell
Sec.—Mrs. R. F. Williams

The date was set for the future annual conferences for the last Wednesday in May of each year.

**Survey of Crops and
Live Stock**

In June of each year, the Dominion Bureau of Statistics, in co-operation with the Provincial Departments of Agriculture, distributes cardboard schedules to farmers for the purpose of collecting statistics of averages under crop and the number of live stock and poultry on farms. An innovation of 1931 extended this survey to cover the breeding and marketing intentions with regard to live stock. In all of the provinces, except Prince Edward Island, Nova Scotia, Alberta and British Columbia, these schedules are distributed to the farmers through the rural teachers. In these four provinces, the cards are mailed direct to the farmers.

The acreages of field crops, in particular, is the real foundation of the scheme of agricultural production statistics. Only slightly less important in the national planning is the necessity of having correct knowledge of the numbers of live stock on farms. The accuracy of the compilations in both these classes is largely dependent upon the obtaining of completed cards from a fair sample of the total number of Canadian farms.

Here and There

Employed on railway construction 50 years ago, Thomas D. McGilvray, 83, of Edmonton, claims the distinction of having placed the last carload of dirt on the C.P.R. when that trans-continental line was completed to the Pacific coast in 1885. Despite his advanced age he still has a clear recollection of incidents on construction.

Miss Mary McNeill, superannuated in December after over thirty years on the Upper Lakes as stewardess of the C.P.R. Great Lakes Steamships, spent almost her entire service as chief stewardess of S.S. Keweenaw, sailing with her every season from her maiden voyage in 1905 until the close of the 1934 season.

Fortunes are being spent on research in the science of armaments but not one penny for research in the field of disarmament, said Prof. Julian Huxley, famous grandson of the even more famous Thomas H. Huxley, in outlining the meaning and functions of science, its shortcomings and possibilities, at the Lord Nelson Hotel, Halifax, recently.

"Our province will soon take an important place, if not the leading place, among the leading producing countries of the world," stated Hon. J. E. Parnell, Minister of Roads and Mines of the Province of Quebec, in a recent address on "The Mining Industry of Quebec," at the Chateau Frontenac, Quebec City.

WAGIN' TUNG

Vol. 4, No. 40. Arrowwood, June 6, 1935. Items for Thot

**The 1935 Ford V-8**

is acclaimed by everyone for its stunning beauty, luxurious upholstery and smart appointments. Beneath shimmering beauty is Gibraltar-like strength and safety—a welded-into-one-piece solid steel body. The extremely strong X-type frame of last year has been further strengthened. The breaks are more powerful and operate with less pedal pressure. Big Air-Balloon tires give more road contact and resist the roll on fast corners. De Luxe models are equipped with Safety Glass all around—at no extra cost.

Our new **SPECIAL WHITE GAS** is a refined product and is meeting with general approval—at a new low price.

Autolene Oils, the life-saver of gas engines—a weight for every purpose at attractive prices.
